

Mavis' MONSTERGLAM Make-Up Tutorial

STEP 1:

Using a light foundation or powder, dust your face with one shade lighter than usual to achieve a vampire-pale complexion.

STEP 2:

Cover your eyelids from the crease to your lash line with a black eye shadow, sweeping the color from the inner corners of your eyes to the end of your lash line.

STEP 3:

Take that same black shadow, and lightly smudge a thin line under your lower lash line as well to create depth.

STEP 4:

Take a black eye liner and line your entire eye, including your inner water lines.

STEP 5:

Go to town with mascara, creating Mavis-worthy full lashes.

STEP 6:

Sweep a dark purple or black lipstick over your lips, then cover with a clear gloss to add some shine.

STEP 7:

Using a dark brown or black eyebrow pencil, fill in your brows.

STEP 8:

Get some fake, plastic fangs, and voila! Mavis Dracula, is that you!?
