

## Craft

# Finding Dory Photobooth Props

Total Time

30m

Sponsored by: **EPSON**

Print out these fun Finding Dory props and practice your poses.

To add an extra aquatic touch, create a seaweed backdrop using strips of green and blue tissue paper taped to the wall or draped over string. Are you ready for your underwater close-up?

Finding Dory is swimming into cinemas from 29 July.

*Say goodbye to cartridges. With no hidden costs, EcoTank printers are easy to use and offer an ultra-low-cost per page, giving you the freedom to print whenever and wherever you like*

## What You'll Need

- A printer
- Paper
- Card
- Scissors
- Clear tape
- BBQ skewers/lollipop sticks
- A camera

[Download Resources](#)

## How To Make It

- 1 Print the Finding Dory props out
- 2 Glue the paper to the card - this helps makes the props sturdy

Cut around the props following the dotted line

- 4 Tape the dull BBQ skewers/lollipop sticks to the middle of the props. Make sure you've allowed for enough stick for little hands to hold the props up
- 5 Point your camera and have your kids strike their best underwater pose!

*Note: Be sure an adult removes the sharp end of the BBQ skewer before little fingers begin this craft, or that it's supervised throughout.*
